

SATURDAY, APRIL 30. 1743.

Yesterday arriv'd a Mail from Holland.

Stockholm, April 29.

Length the grand Affair of Peace and War is pretty well over. M. Hermanfon, Secretary to Baron Nolken, one of our Plenipotentiaries at Abo, arrived here lately with Dispatches, by which it appears, that the Plenipotentiaries from the Emperour of Russia have received full Power to offer to Sweden the Restitution of Finland, with some other considerable Advantages, in case the States shall chuse the Duke of Holstein-Uten Successor to the Crown; and also to stipulate, that Russia shall assist Sweden with all her Forces, in case she should be attack'd by any Power whatsoever. These Dispatches having been communicated to the Dyet, a Resolution pass'd, almost unanimously, to give full Powers to the Secret Committee to regulate, in a manner, the most agreeable to the Safety of the State, and the Welfare of the Nation, whatever relates to the future Peace, or to the Nomination of a Successor. At the same time the following Noble Persons were appointed a special Committee to draw up Instructions for our Plenipotentiaries at Abo; viz. the Count Gyllenbourg and Teflin; the Senators Ackerhielm and Eric Wrangel; the Marshal of the Dyet; the General During; the Chancellor, Count Piper, and some other Members of the Secret Committee, so that we now look upon the Peace as good as concluded. On the 26th the Senator Count de Teflin went to Court, and laid down all his Places, for what Reason no body can divine.

Lisbon, April 2. The King has had another Attack of his Malady; it is true, he recover'd as soon as a Vein was open'd; but as these Fits return more frequently than they have done, and as the King grows weaker and weaker, we begin to despair of enjoying him long. On Saturday last the Princess of Brazil went abroad with all the Attendance of a crown'd Head, which is what the King would never permit till now.

Madrid, April 15. This Morning the Bishop of Rennes, Ambassador from France, dispatch'd a Courier to his Court with the Picture of the Infanta Maria-Teresa, done by M. Vanloo, first Painter to his Majesty, which is intended for her future Spouse the Dauphin. M. Joseph del Campillo, Counsellor and Secretary of State for War, the Marine, and the Indies, Sur-Intendant and Lieutenant of the Infant Don Philip, died here on the 11th. He wrote in his Closet till between Two and Three in the Morning, where he was seized with a Fit of an Apoplexy, with a Dish of Coffee in his Hand. He lost the Use of his Voice immediately, but his Fall brought his Servants, by whose Care he was four times blooded, but to no Purpose. He is extremely regretted, not only by the King and Queen, but by the whole Court. He was a Minister of true Genius, prodigious Application, and so disinterested, that he died in a Manner worth nothing, for which Reason his Majesty has granted a Pension of 1000 Pistoles a Year to his Widow. The Marquis de Villarias is appointed his Successor *pro interim*.

Schaffhausen, April 28. The Spaniards in Savoy begin to move out of their Quarters; their Infantry camp'd on the 25th at Monmellian, and their Cavalry at Anneci. The Infant Don Philip has forbid, under Pain of Death, any of the Inhabitants of the Duchy of Savoy, to go out of it without a Passport. The Retreat of the Spaniards in Italy was of worse Consequence to the Infant's Army than the Loss of a Battle, for a prodigious Desertion has reign'd amongst them ever since, insomuch that the Battalion of Wurtz is almost entirely lost.

Frankfort, May 2. Our Magistrates have sent a Deputation to Mentz, to compliment the new Elector. The Auxiliary Troops are now in our Neighbourhood, and the Earl of Stair is at Little Sultzbach, which is but a League off. He wrote a Letter to our Magistrates, in which he says, that the King his Master had not sent his Troops so far to make Conquests, but to defend the Liberties of Europe against Foreigners, and to assist the Queen of Hungary against her Enemies.

Amburg, April 25. The Marquis de Chiala, Lieutenant-General, return'd here Yesterday from Egra, after having left there a Garrison of 3000 fresh Troops, the old Garrison being reduced to about 700 able to bear Arms. He likewise carried a great Convoy of Provisions into the City. This Enterprize has not cost the Life of a single Man, if we except such as died of Sickness upon the Road, which were a pretty considerable Number. Prince Lobkowitz treated this Expedition as if it had

happened a hundred Miles off, tho' the French Troops pass'd on the very Edge of his Quarters. Prince Charles of Lorraine, who arriv'd in that General's Quarters on the 16th, approved entirely of his Disposition, after he had examined it attentively; which seems to us very unaccountable. It was propos'd in the last Council of War held before Marshal Broglie, to attack Prince Lobkowitz directly, in order to oblige him to quit Wieden, and the rest of the Posts he occupies at present in the Upper Palatinate, but the Marshal could not be brought to think of that. He said, if the Prince made the least Motion towards Egra, it would give them an Opportunity of attacking him with Advantage, but as Things then stood, he thought it would be running too great a Risk to attempt forcing the Austrian Lines; So that this Campaign all that is remarkable will happen on the other Side Bavaria, between the Isar and the Inn, where Marshal Seckendorff is assembling an Army of 40,000 Men, with which he intends to attempt forcing the Lines at Scarding, and, in case he succeeds, will immediately form the Siege of Rastatt. It is certain, that two of the principal Points which it was thought would have been answer'd by the Relief of Egra, the French are disappointed in; for the Austrians have not made the least Motion towards quitting this Country; nor does it appear that the Queen of Hungary will delay her Journey to Prague so much as a Day on account of this Accident.

Karlsbad, April 28. The Royal Regiment of Bavaria, and the Royal Regiment of Sweden, which were lately in Garrison at Egra, pass'd the Danube in order to go to Weiss, from whence they will march to Straubingen, where they are to be Quarter'd till such time as they receive their Recruits, of which indeed they stand in the greatest Want. Marshal Broglie is to go very shortly to Alt-Oringen, in order to assist in a Council of War, where the Emperor himself is to be present, and in which they will, for certain, regulate the Operations in the ensuing Campaign. In the mean time, a considerable Reinforcement has been sent to the Troops in the Archbishoprick of Saltzbourg, and according to all the Dispositions that have been lately made, it appears evidently to be the Design of the Imperialists to penetrate directly into Austria. We are thoroughly satisfied that Marshal Seckendorff's Forces are at least 30,000, exclusive of the Militia. We are well inform'd, that the Queen of Hungary's Auxiliaries are about 60,000 strong, and that the French Army which is to follow them, will be nearly of the same Strength; but according to a Letter written by Marshal Noailles to Marshal Broglie, there will be no danger of Action on either Side for a Month at least.

Hague, May 7. The Town of Groningen have given their Consent to the March of 20,000 Men for the Service of the Queen of Hungary; but the other Members of the States of that Province insist, that our Troops shall be first augmented according to the last Regulation, and have separated without coming to any further Resolution; but as a Committee is appointed to sit during their Recess, it is not doubted but they will find out some Expedient for satisfying both Parties.

Concerning Gleets and Seminal Weaknesses
of all Kinds.
ALL judicious Physicians and Surgeons
 allow, that nothing is more difficult to cure than
 Stubborn Gleets and Seminal Weaknesses, whether occa-
 sion'd by too severe purging for Venereal Injuries, violent
 Strains, Pollutio sui, or any other Cause whatever; and
 that they are dangerous in their Consequences, as well as
 difficult to cure, is as certain, since they exceedingly weaken
 the Generative Faculties, infect the whole Nervous System,
 often bring on Hechick Heats, a Tabes Dorsalis, or Consump-
 tion of the Back, or an Atrophy or Nervous Consumption,
 which frequently terminate in Death itself.
 All such, therefore, who have the Misfortune to be troubled
 with Old or Stubborn Gleets, Seminal Effusions, Involun-
 tary Emissions, excessive Nocturnal Pollutions, or any Weak-
 ness of the Kidneys, Ureters, or Bladder, the Diabetis, or
 Incontinency of Urine, or Difficulty of holding their Water,
 would doubtless be glad to meet with a certain, safe, and
 speedy Cure, which they most assuredly may, by taking
 only a small Quantity of a transcendent BALSAMICK RE-
 STRICTIVE ELECTUARY, now published for a general Good,
 after having for many Years been experienc'd never once to
 fail perfectly curing the most Stubborn Gleets known, in
 a few Days, without Difficulty or Trouble; as also all
 other Weaknesses of the Bark, Reins, Seminal Vessels, and
 Urinary Passages, which almost instantly cures, bringing
 to rights and restoring all those Parts and Passages to their
 natural Tone and pristine Vigour, in a very extraordinary
 Manner, and by taking a few Doses of it only.
 This transcendent BALSAMICK RESTRICTIVE ELECTUARY
 is neither disagreeable to take, nor occasions the least Disor-
 der, but is a wonderful Restorative in all Weakness and Decay
 of Constitution of any Kind; and particularly strengthens the
 Back, Reins, Seminal and Urinary Vessels to an immense De-
 gree, inasmuch that in any Debility of them, one Dose of it
 does more than ten of any other Remedy yet found out; and
 all Persons fatigu'd with Gleets or Seminal Weaknesses of any
 Sort, or Weaknesses of the Urinary Vessels, who take it, will
 in three Days time find it so very effectual, that they will be
 most agreeably surpris'd at it.

When a Medicine will infallibly accomplish such a safe,
 speedy and perfect Cure of such difficult Maladies, as Gleets
 and Seminal Weaknesses are, as this Great Remedy truly and
 directly will, even after all other Means and Medicines have
 been tried in vain, too much cannot be said in it, and this.
 All who ever took it for any of the above-mention'd Purposes,
 have readily declared.
 The Price is but 6s. a Pot, altho' for its absolute Efficacy,
 one Pot alone being sufficient in most Cases to accomplish
 a Cure, worth ten times as much, and by the Author's
 special Appointment, is to be had only at Mr. Radford's
 Toy-shop, at the Rose and Crown against St. Clement's
 Church-Yard in the Strand, ready sealed up, with a Book of
 Instructions, which whosoever carefully reads will perfectly
 know, when the Gleet or Weakness he is afflicted with,
 succeeds a Venereal Injury, whether all the Malignity of
 the Foul Disease is entirely eradicated or not.
 Note, Ask only for a 6s. Pot of Balsamick Electuary.

This Day is published,
The Second Edition, with large Additions,
IN TWO VOLUMES, Octavo.

ANTI-SYPHILICON.
THE only short and most infallible
 Cure in the Universe for the Venereal Disease,
 from the slightest Infection to the most extreme and deplora-
 ble Degree of it, even when the Blood and Juices are thor-
 oughly contaminated with its malignant Virus, and the ve-
 ry Bones are affected with it.
 Fresh Infections, call'd *Chancres*, with all their attendant
 Symptoms, tho' ever so severe, are entirely carried off by
 it in a few Days, and so as effectually to prevent the Blood
 and Juices from being tainted with any remaining Relicks
 on one Hand, or a seminal Gleet or Weakness to happen
 on the other.
 And the most inveterate Degree of the French Illness,
 attended with Nocturnal Pains, universal Breakings out,
 and all the other most exasperated Symptoms, are soon
 overcome by it, and effectually and much more safely cur-
 ed than by Salivation, Inunguation, or any other Method
 whatever, and in so easy and pleasant a Manner, without im-
 pairing Strength, or occasioning any Inconvenience, as loudly
 to bespeak it the only apposite Remedy or true Venereal
 Antidote in the World; and this some Thousands have to
 their great Joy experienc'd.
 It is pleasant to take, occasions no Sickness or Disorder,
 nor requires Confinement; but may be taken, and the Cure
 be accomplish'd, without the Knowledge of the nearest
 Friend.
 Those who suspect they have received an Injury, may,
 by only a Dose or two of it, be perfectly freed from all
 Apprehensions; for it suffers no lurking Venom to lie hid
 in the Body, but wholly extirpates it Root and Branch, in a
 gentle, easy, and most effectual Manner.
 All such likewise as doubt they have some remaining Re-
 licks of former Injuries, may by a few Doses of it entirely free
 themselves from all Suspicion of that Kind; for it admits of
 no Foulness, Corruption, or Putrefaction whatever, to re-
 main in the Fluids, or to adhere to the Solids; and on that
 Account, in all scorbutick, scrophulous, and even leprous
 Eruptions or Foulnesses of the Skin, Glandulous Swellings
 and Impurities of the Juices, it does more by one Dose,
 than any other Medicine yet known can by ten.
 The Price of this most Noble Anti-Syphiliticon is but
 Six Shillings a Pot, which, considering its extraordinary Efficacy,
 one Pot only being sufficient in most Cases to accom-
 plish the Cure, is not a tenth Part of its Value; and is ap-
 pointed by the Author to be had only at Mr. Radford's
 Toyshop, at the Rose and Crown against St. Clement's
 Church-Yard in the Strand, ready sealed up with a Book of
 Instructions, by the Perusal of which, all Persons who were
 ever affected with any Degree of the Venereal Disease, may
 perfectly understand their own Condition, and certainly
 know when, and when not, the Venereal Poison is entirely
 rooted out of their Bodies.
 Note, Ask only for a Six Shilling Pot for the Scurvy.

These are to Certify whom it may concern,
THAT the Two Medicines for ex-
 ternal Use, which have been sold with so much Suc-
 cess for the Good of Mankind above Thirty Years last past, for
 the Cure of
All Sorts of RUPTURES, BURSTEN, or
BROKEN BELLIES.
 are removed from the Minorities; where they have been sold for
 the Author, so long, and are now sold only at Mr. Sandwell's
 Toyshop, the Sign of the Griffin, the Corner of Buckler's
 Bury in the Poultry, at 5s. the Parcel, with printed Directions
 given with them.
 These two Remedies need no other Recommendation than
 themselves will manifest in two or three Days using, having by
 their admirable and even astonishing Success, gained the Re-
 putation they so justly deserve, both in City and Country,
 after wearing Trusses for many Years to no Purpose.
 For by the Blessing of God, they make a perfect Cure,
 either on Old or Young, in a very little Time, and for a small
 Charge, without any Pain to, or Confinement of the Patient;
 one Parcel is generally sufficient for a complete Cure, espe-
 cially on a young Person.
 Many Hundreds of all Ages and Sexes have been cured by
 them, which occasioned this Publication, for the Good of the
 Publick, that all such unhappy People may be delivered from
 the Charge and Slavery of always wearing Trusses.
 The World might have had many Certificates of Cures of
 Persons of all Ages, from Children of a few Months old, to
 grown Persons of 60 Years or upwards; but that People
 are naturally averse to let it be known, that they ever had
 such an Infirmity: Yet Mr. Sandwell can satisfy any In-
 quirer of the Validity of what is here said, tho' he has not
 had such large Knowledge, by reason of the short Time he
 has sold 'em, as they from whom the Medicines are now, for
 good Reasons, removed.
 No Letters received except Post paid.
